Invitation to the Conference

Fibre Concrete 2015 is an international conference focused on fibre reinforced concretes traditionally held biennially. The objective of the conference is to offer a basis for the presentation and discussion of the recent knowledge in theory, design and use of fibre composites in concrete structures. The results of experimental research, new materials development, progress in analytical methods and their implementation in design will be presented. Successful applications of fibre reinforced concrete in structures and executions of FRC structural elements and structures will be demonstrated. The conference aims at getting together specialists from different spheres – research, development, technology and applications of concrete, designers and building industry enterprisers.

It is a great pleasure for me to invite you to this Conference on behalf of the Conference Organizers.

Prof. Alena Kohoutková

Dean of the Faculty of Civil Engineering
Head of the Department of Concrete and Masonry Structures

Call for Papers

Authors are encouraged to submit abstracts (150-250 words) for the Conference FC 2015 as soon as possible, but not later than **May 1, 2015**. The abstract should clearly state the aims, content and conclusions of the paper. Submit your abstract at:

<http://concrete.fsv.cvut.cz/fc2015>

All abstracts will be peer reviewed and evaluated based on originality, technical and/or scientific content, correctness and relevance to conference by a scientific committee and selected on the basis of merit for oral or poster presentation.

The notification of abstract acceptance and further information will be sent to the main authors by **June 1, 2015**.

All accepted papers will be published in Conference Proceedings with ISBN and in electronic version (E-Periodical) with ISSN. Conference Proceedings will be submitted to be indexed in the Thomson Reuters and SCOPUS (Elsevier) database.

The deadline for the submission of final full papers is **July 1, 2015**.

Instructions for preparation of full papers are available for downloading on the web page of the conference.
